AIR PURIFIER

New generation of fresh air technology: Mia Air

We spend 90% of our lives indoors and yet indoor air quality is 10 times more polluted than outdoors. This can lead to health problems and lowers our quality of life. Specifically designed to clean air pollutants **Mia Air Compact**, offers superior indoor air quality that will improve the quality of life.

Continuity in fresh air

Mia Air Compact, improves the quality of life by continuously cleaning the indoor air without affecting the ambient temperature.

it is one of the highest capacity devices with the ability to clean a room of 25 m² on average 3* times per hour.

**The average ceiling height is considered as 3 meters (9.843 ft).*

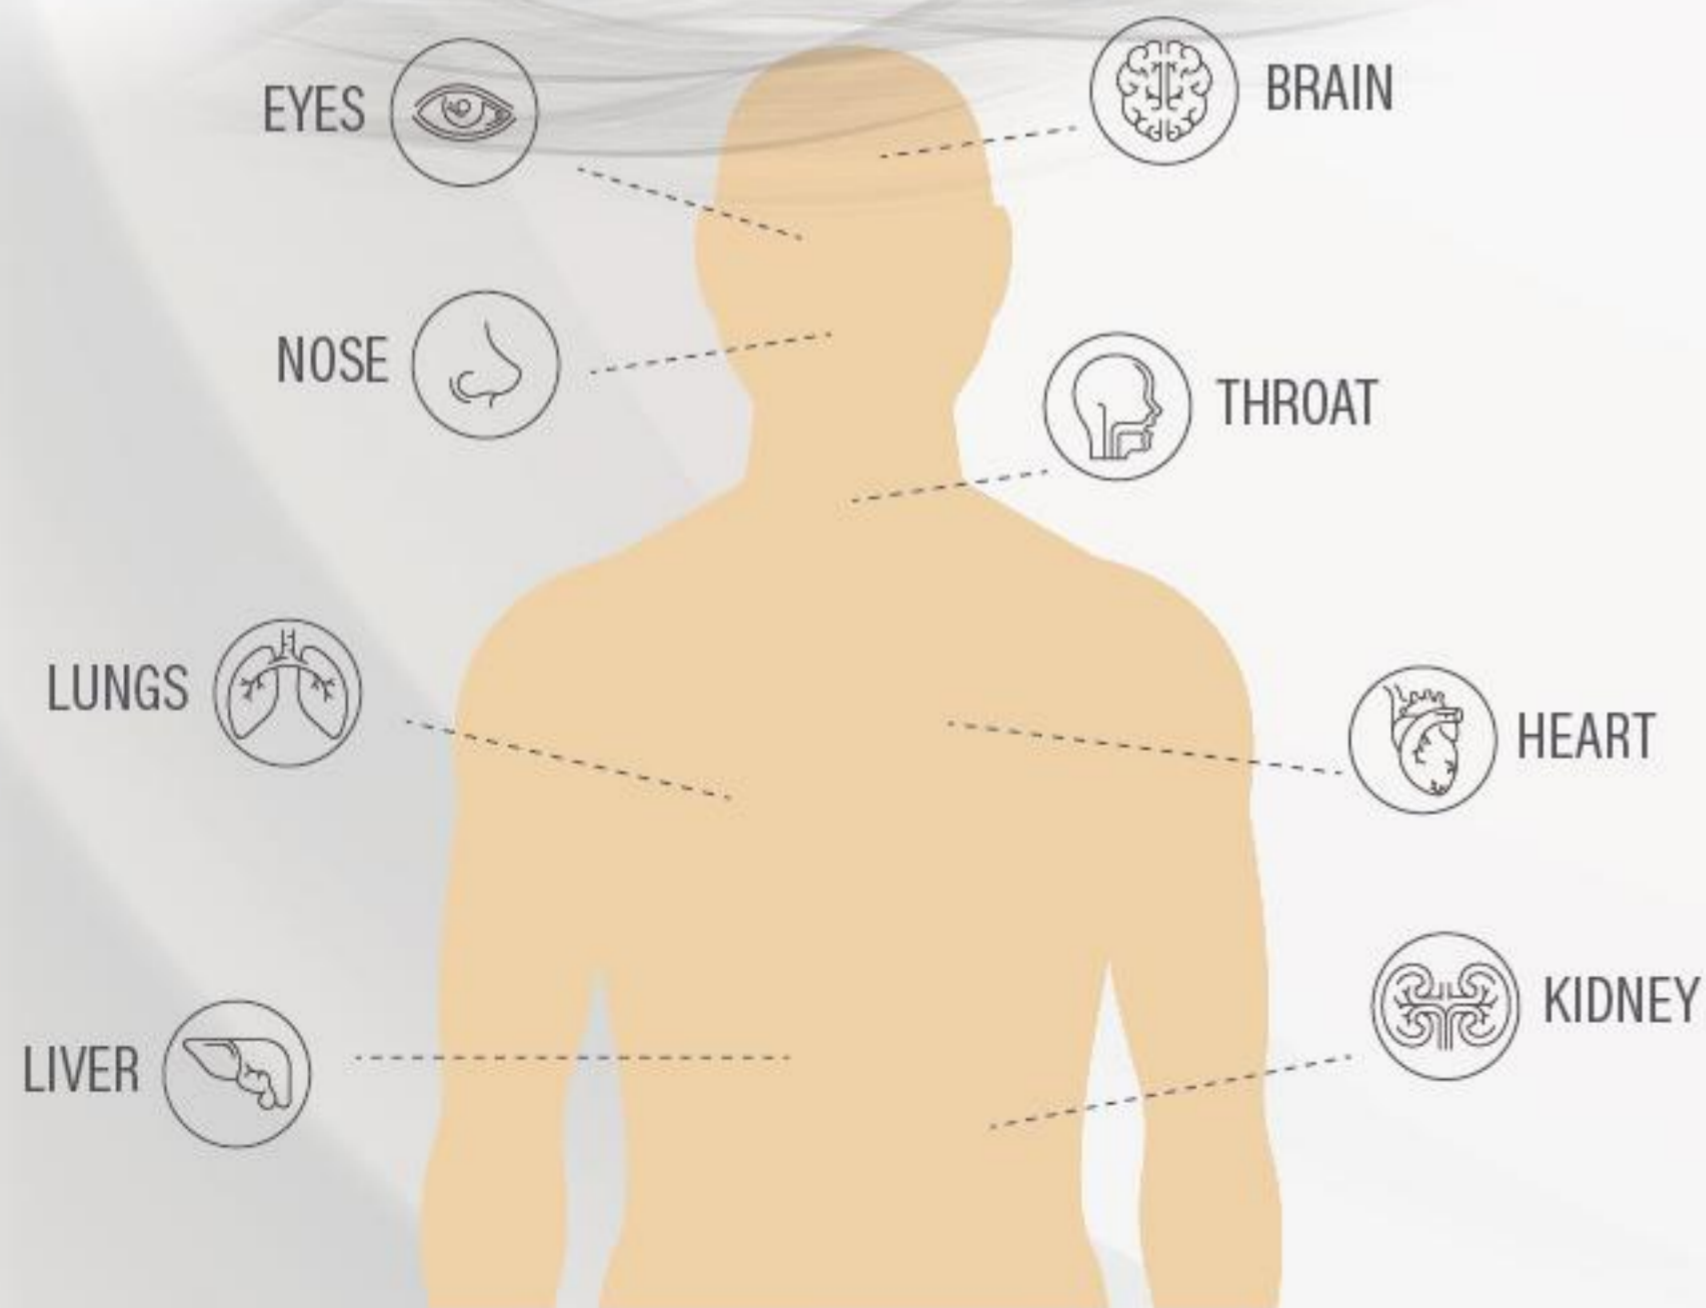

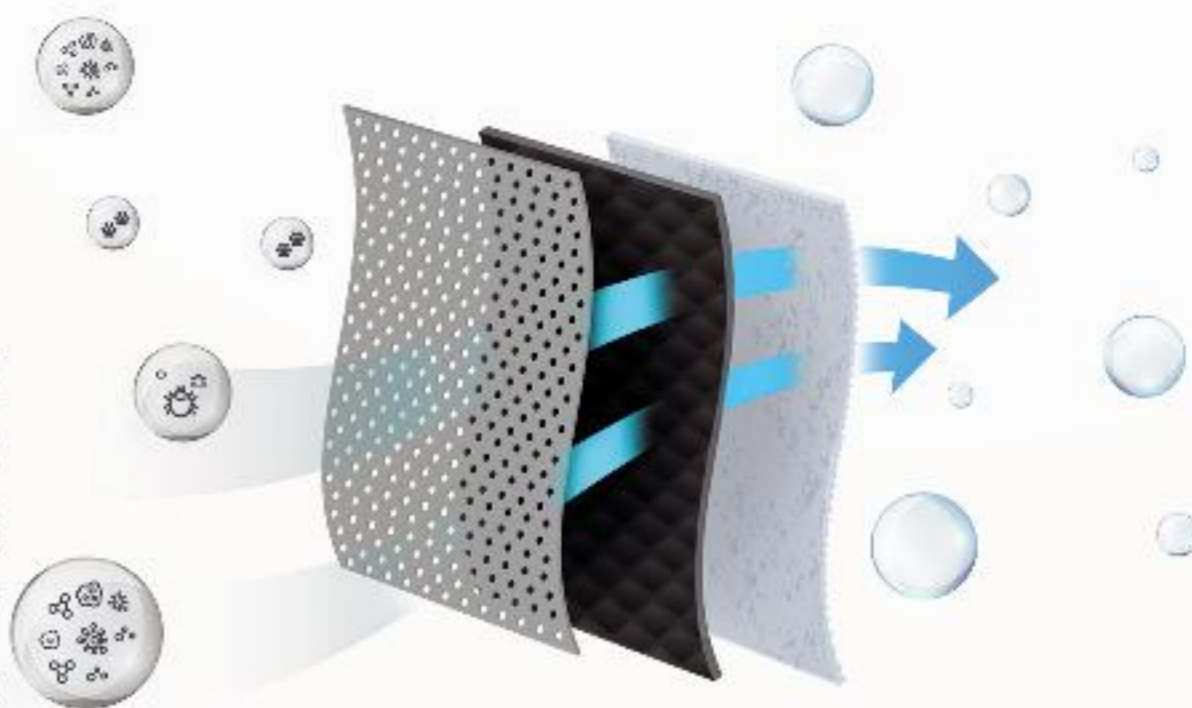

■ TECHNICAL SPECIFICATIONS

Power Supply	230 VAC, 50 Hz
Energy Consumption	50 W
Measurements (NET) Weight	52 x 33 x 21 cm 6,5 kg 20.5" x 13" x 8.3" 14.3 lbs
Air Volume	105 - 275 m ³ /h 62 - 162 cfm
Sound Level (Auto Mode)	<65 dB (A)
Display	Touch sensitive
Active Carbon & HEPA Filter Specifications	Front Filter, Active Carbon Filter, HEPA H10 (standard) ≥ %95 @ ≥ 0,3 μm HEPA H13 (optional) ≥ %99,99 @ ≥ 0,3 μm
Color Options	■ Anthracite ■ Red ■ White
VOC Efficiency	Benzene Formaldehyde Ethyl Alcohol Toluene Xylene etc.

Sometimes what you can't see, can do the biggest harm to you

With more than 30 years of air filtration experience, **Mia Air Compact** offers you the latest filtration technology. **Mia Air Compact** has been designed to provide fresh clean air by trapping 99.99 % of ultra-fine particles in the air. By using HEPA filtration, which traps extremely small particles, **Mia Air Compact** can transform polluted air into clean air in seconds.

PARTICLES CAN AFFECT YOUR ORGANS

By capturing chemical pollutants (VOCs) in the air with the world's leading activated carbon filter, **Mia Air Compact** traps chemical pollutants and greatly reduces the risk of developing health problems caused by air pollution. The 'best in class' **Mia Air Compact** HEPA and activated carbon filters not only supply highly efficient filtration but also long-lasting service life.

Designed with environmental sensitivity in mind

With a minimum carbon footprint, **Mia Air Compact** is energy efficient and environmentally friendly. Thanks to its anti-allergenic structure, it delivers fresh air at a maximum level.

Mia Air Compact is CE certified, is designed for safety of all age groups and has a fireproof ABS body structure.

Your Air is under control with Mia Air Compact

Mia Air Compact's practical and sleek panel design, allows you to control the environment of both you and your loved ones manually; by selecting the fan speed, setting the timer and keeping track of the filter life with the filter change signal.

Improve the air quality

- Effective Against Allergens
- Environmentally Friendly
- User Friendly
- CE Certified
- Touchscreen Display and Timer
- Traps $\geq 99.99\%$ of Pollutants in the Air (HEPA Filtration Technology)
- Easy Transport with its Light Structure
- Reduced Noise Level

Deactivation ratio of microorganisms within the 1st hour of contact 99.98%* with ANTIMIC® coated HEPA filters.

*AATCC Test Method 100-2004, % reduction of Legionella Pneumophila, Sabancı University, 2012
